

Operating Expenses

Box Owners

 CASH IS KING UNIVERSITY

The 4 Key Numbers

Real Revenue

- Different than “Total Revenue”
- Makes all businesses comparable

Owner's Pay

- Take home pay
- The cost of your lifestyle

Profit

- What comes back to you because you are the owner of the business
- Also known as “Return on Investment”

Tax

- This can be minimized
- The business generates the burden of the tax so it should be the one that pays the tax
- You shouldn't have to pay the tax out of your lifestyle money.

OPERATING EXPENSES

The Leftovers

OPERATING EXPENSES

These are all your other expenses that we haven't talked about yet. And the reason it is not one of the 4 key numbers is because paying yourself first should be the priority. Owner's pay, profit distributions, and taxes are all things that enhance the business owner's life. Operating expenses is what you have left after you've been taken care of.

Starting point is "total expenses" on a Profit and Loss Statement

When inputting the operating expenses onto the worksheet, do not double count expenses.

You have now completed an "instant assessment" for your business. Check it out on your Know Your Numbers worksheet!

OPERATING EXPENSES

The Leftovers

Total Expenses	=	\$463,138
Coach Expense	=	-\$132,120
W-2 Amount	=	-\$ 32,000
Cell Phone	=	-\$ 1,200
Travel	=	-\$ 145
